Navigating the DOM? There's an app for that!
The Emory Department of Medicine’s Early Career Subcommittee is excited to introduce its first ever departmental app. The Best Unofficial Guide to Life at Emory (BUGLE) is a quick-reference guide to life at Emory, including general information as well as site-specific details to assist new faculty. Available as an app on iOS devices (search the app store for “Emory Bugle”) and online in a PDF (Emory credentials required).

Did you know?
The Department of Medicine’s Consult Program offers free assistance to faculty members in five areas including teaching and presentation preparation. Read more and submit your request now!

Milestones for Internal Medicine Sub-interns

Teaching the Art of Consultation
Last month we learned advice about teaching in the outpatient clinic. Consultative medicine represents another setting which requires attention to additional skills. All of the teaching tips which appeared in the February newsletter detailing important principles about attending on the hospital service apply to teaching learners on the consultative service, however there are additional challenges and potential pitfalls that can transform an effective consultant into an ineffective one. It is incumbent upon the teaching attending to make these explicit, teach intentionally and help the learner develop appropriate habits. Continue
Events & Educational Opportunities

August 15: 9th Annual Women and Heart Disease
Emory Saint Joseph’s Hospital is sponsoring this CME/CE activity providing the latest evidence-based information on evolving concepts and new therapies.
August 15, 7:00- 1:15 PM | Atlanta Evergreen Marriott Conference Resort | Early registration ends July 21 | Read More

August 29: Community Movie Night
Join members from all three Communities for a family friendly movie night on the Clairmont Campus. Faculty members and their families are invited to come out at 7:30 for pre-show entertainment and fun followed by a viewing of How to Train Your Dragon at sunset. RSVP now!

October 1: Clinical Skills Workshop
Save the date for this half day workshop aimed at improving clinical examination skills of faculty and the teaching of those clinical skills to trainees. More details coming soon!

Highlighted Educator

Noble Maleque (Hospital Medicine)

Noble M. Maleque, MD, FHM, FACP is Assistant Professor of Medicine in the Division of Hospital Medicine, Associate Program Director for the J. Willis Hurst Internal Medicine Residency Program, and Medical Student Osler Society Advisor at Emory University’s School of Medicine. He completed his undergraduate training at Vanderbilt University in Molecular Biology and Chemistry, and his medical training at Vanderbilt University School of Medicine. He completed his Internal Medicine residency at University of Washington Affiliated Hospitals followed by a year as Chief Resident at Harborview Medical Center in Seattle, Washington. He joined Emory as a hospitalist at Emory Midtown in 2004 and serves as inpatient ward attending for the teaching services as part of his clinical duties.

In the Department of Medicine, Dr. Maleque serves on the department’s Residency Leadership Committee, Residency Clinical Competency Committee and chairs the Core Competency Improvement Committee. Along with Dr. Shahed Brown, he co-directs the Residency Program’s Distinctions in Inpatient Medicine. He was awarded the Division of Hospital Medicine Education Award in 2012 and the Division’s Teaching Award in 2014. He was inducted into the Department’s Academy of Medical Educators in 2015. His interests include medical education and quality improvement. He completed the Intermountain Healthcare Advanced training program in health care delivery improvement. He participates on the Division of Hospital Medicine Quality council and has served on Society of Hospital Medicine Quality and Patient safety committee. He is a member of the Executive curriculum committee for the School of Medicine.

Outside of work, Dr. Maleque enjoys reading, running, and watching sports but spends most of his time at home chasing his 4-year old daughter and having pretend tea parties with her.
