Monday is the last day to register for DOM Research Day
Don’t miss this exciting event! The 7th Annual Department of Medicine Research Day will take place on Friday, October 3rd in the Cox Hall Ballroom. Join us as we celebrate the research efforts across the department at the largest Research Day in the event’s history. RSVP by September 22 | View updated schedule

*Reminder:* Join us for first Research Resources 101 workshop of the season: Glycomics Center
The workshop, entitled "Need to Sweeten Your Research? The Glycomics Center Can Help!" will take place Thursday, September 18 from 12:00 – 1:00 PM in room 178P of the School of Medicine building. Bring your lunch – we’ll provide cookies and water. RSVP by tomorrow | View learning objectives

Medical Student Discovery Phase requests faculty research mentors
Active clinical, translational or basic research investigators are invited to participate as a mentor for one of the medical students in the Emory Medical Student Discovery Phase. Discovery is a required part of the medical school curriculum in which all medical students will have a 5-month block devoted entirely to a focused, hypothesis-driven research project. Read more (PDF)…

Revised NIH policy on IDPs beginning October 1, 2014
NIH annual progress reports received on/after October 1st must include a section to describe how individual development plans (IDPs) are used to identify and promote the career goals of graduate students and postdoctoral researchers associated with the award. Read more…

Madeleine Hackney (General Medicine & Geriatrics)
Dr. Hackney’s research was the focus of a recent article in the Atlanta Journal Constitution. Read the article here.

Michael Davis (Cardiology)
Dr. Davis is Principal Investigator on a new R56 award from the NIH NHLBI entitled, “CPC Exosomes for Cardiac Therapy.”

New Funding & Award Opportunities *(view all)*

Weekly NIH Funding Opportunities & Notices  [Read more...](#)

Federal Funding Opportunities for Public Health Faculty  [Read more...](#)

**Juvenile Diabetes Research Foundation (JDRF) Opportunities**

**JDRF/Helmsley Charitable Trust: Improved Assays for Predicting Risk for T1D (LOI due September 22):**
This funding opportunity will assist to optimize and validate existing technologies for predictive screening for T1D risk and autoimmunity to be applied for wide-spread use in population-based screening efforts, including newborn or childhood based screening.  [Read more (PDF)...](#)

**Studies Relevant to the Discovery and Development of Antigen Specific Therapies for Human Type 1 Diabetes (LOI due October 10):** This funding opportunity is for the discovery, development, pre-clinical or pilot clinical testing of novel antigen-specific therapeutic approaches designed to induce durable immunoregulation for human type 1 diabetes.  [Read more...](#)

**American Academy of Allergy, Asthma & Immunology: Education and Research Organization K and R Award Bridge Grant**

**Deadline: October 15**
This grant will fund either: 1) K grant awardees whose first-time R Award application was evaluated but not funded, and who are at risk of running out of research support; or 2) K Award applicants whose applications was submitted and scored but not funded, and who are risk of running out of research support.  [Read more (PDF)...](#)

**NIMH: Gut-Microbiome-Brain Interactions and Mental Health (R21/R33)**

**Deadline: October 25 (for LOI)**
This FOA encourages research grant applications from institutions/organizations to investigate mechanisms by which the gut microbiome modulates the development and function of brain circuits that subserve behavioral functions of direct relevance to the mission of the NIMH.  [Read more...](#)

**AHA: Strategically Focused Research Network: Disparities in Cardiovascular Disease**

**Deadline: October 30 (for LOI)**
The AHA is interested in the science community exploring all aspects of disparities in cardiovascular disease, which can assist the AHA in reaching its 2020 Goals and overall mission of building healthier lives free of cardiovascular disease and stroke.  [Read more...](#)
NIAAA: Secondary Analyses of Existing Alcohol Epidemiology Data (R21, R03, and R01 Available)
Deadlines: Various (see below)
This FOA encourages the submission of investigator-initiated research grant applications to support the secondary analysis of existing data sets with the goal of enhancing our understanding of patterns of alcohol consumption and the epidemiology of alcohol-related problems.
**R21 due November 25; R03 due October 24** (new applications) / **November 16** (resubmissions), and **R01 due October 24** (new applications / **November 5** (resubmissions).

NINDS: Request to Access Parkinson’s Disease-Related Biospecimens (X01)
Deadline: Rolling Submission
This FOA allows an investigator to apply for access to non-renewable biosamples from one or more biosample collections at: 1) The National Institute of Neurological Disorders and Stroke Parkinson’s Disease Biomarkers Program; 2) The Michael J. Fox Foundation Parkinson’s Disease cohorts and biosample collections; 3) The NINDS-sponsored National Brain and Tissue Resource for Parkinson’s Disease and Related Disorders at the Banner Sun Health Research Institute; and 4) The Harvard Biomarker Study Biospecimen. Read more...

NIAID: Career Transition Award (CTA) (K22)
Deadline: Standard Dates apply
The purpose of this CTA program is to increase and maintain a strong cohort of new and talented NIH-supported independent investigators that will address the health needs of the Nation. The NIAID CTA is specifically designed to facilitate the transition from a postdoctoral research position to an independent research position. Read more...

Events & Educational Opportunities

Upcoming workshops from the Health Sciences Center Library
Sep 17 at 3PM: Exploring Scientific Literature: Mastering PubMed
Sep 18 at 12PM: EndNote for Public Health Students
Sep 22 at 3PM: SPSS Basics (via Lynda.com) Session 1
Sep 23 at 3PM: An Introduction to Pathway Analysis Tools Available from the WHSC Library (Demo Only)
Sep 23 at 3PM: Find and Manage Articles for Your Project, Your Boss, or Your Team
Sep 23 at 3PM: Planning for a Systemic Review

September 18: Center for AIDS Research pizza, posters and presentations
Posters and pizza at 5:30PM; talks at 6:00 PM. Room 1000, Claudia Nance Rollins Building.

September 18: “What We Talk About When We Talk About Ethics”
This third annual Marcus Visiting Professor discussion features John Lantos, MD Director, Children’s Mercy Bioethics Center.
Ethics Center, room 102. 11 AM – 12 PM.

The Hubert Department of Public Health welcomes Dr. David Marrero, PhD, President-Elect, Health Care and Education, American Diabetes Association and J.O. Ritchey Professor of Medicine and Director of the Diabetes Translational Research Center, Indiana University School of Medicine as he shares his internationally recognized expertise in the field of clinical trials in diabetes and translation research.
CNR Auditorium, Rollins School of Public Health. 12 PM – 1 PM.

September 19: “Blood Genomics of Stroke”
Sponsored by Children’s Center for Neurosciences Research, this seminar presents Frank Sharp, MD, Professor of Neurology at the University of California at Davis.
Egleston Classrooms 5-7 with Videoconference to SR Cafeteria Conference Room. 12 PM – 1 PM.

September 22: “Use of Controlled Substances in Research – A Tutorial on Regulatory Requirements”
The program is tailored to investigators and compliance personnel and provides information for researchers about the regulatory requirements when using controlled substances in research. This presentation features Christine Cramer, Research Compliance Specialist at the Office of Research Compliance and is sponsored by the Office of Research Compliance and the Institutional Animal Care and Use Committee.
1599 Building, Conference Room 5C. 12:00 PM.

September issue of Research Administration newsletter available
The September issue includes information on the new fringe rates and more. Please note the new web link to access the newsletter. Read more...

New Uniform Guidance goes into effect December 26
Information on this new circular and what Emory is doing to prepare for this transition can be found at this website. It is important that everyone who is involved in federal research or research administration at Emory is aware of these upcoming changes.

September 18: Research Matters (CME available)
Topics include “New Frontiers in Clinical Trials for Alzheimer’s Disease” by Allan Levey, MD, Professor and Chair of Neurology; “Mandatory Online Trainings: ELMS and IRB Verification” by Bridget Strong, MBA, CCRP; and “Research Participant Payment Funds (RPPF) Process” by Vakela L Kelly, CPA. 11:30 – 1:00 PM; Emory Hospital Auditorium, 2nd floor, E wing. Registration required (Browse catalog > Clinical Research Education). Questions?

OGCA welcomes Nicole Cohee, Associate Director Read more (PDF)...

Highlighted Research Resource

Chad Robichaux, MPH (DAB Core)
Mr. Robichaux is a Research Informatics Analyst in the Department of Medicine Data Analytics and Biostatistics (DAB) Core. In this role, he assists faculty in their research needs with clinical data extraction, biostatistics, study design and other activities. Previously, Chad worked for Emory Healthcare for seven years as a data analyst for infection prevention and control. Before that he was a research specialist for the hospital epidemiology team, working on sharps and needle stick prevention for two years. Chad has a master’s degree in public health from Emory. Originally from New Orleans, LA, Mr. Robichaux has been in Atlanta for more than 20 years. He loves college football, running, and taking his dog to the dog park. Read more...
