**Announcements**

**Reminder:** Research Resources 101: Learn about crowdfunding at Emory, a new avenue to support your research efforts
Join us for the first Research Resources 101 workshop of the academic year on September 17 from noon to 1 p.m. in the Emory University Hospital Auditorium (2nd floor, E wing). Participants will review concepts and best practices in crowdfunding, see sample crowdfunding projects, and learn Emory’s specific site application and review process. RSVP by September 16 | View remotely | Questions?

**Are you applying for the NIH Loan Repayment Program (LRP)?**
As part of the LRP application process, every applicant is required to identify an “Institutional Contact” who will provide official verification to NIH on Emory’s behalf of the applicant’s base salary and availability of time and resources to conduct the proposed research. All School of Medicine applicants should identify Joshua Barwick, J.D., Associate Dean for Administration (Joshua.barwick@emory.edu; 404-712-9793), as their Institutional Contact to ensure that Emory can provide NIH with timely and accurate verification for all applicants. Questions?

**ACTSI needs assessment survey**
**Deadline: October 2**
ACTSI Tracking & Evaluation program is conducting a needs assessment survey to gather information regarding the ACTSI resources you may have used, or resources and support that you would like to be offered. The survey data will remain anonymous and all data will be reported in aggregate. Thank you in advance for helping the ACTSI to better serve the Atlanta research community. For more information, please contact Dr. Meltem Alemdar, director, ACTSI Tracking & Evaluation. Begin survey...

**Find out what PCORI is looking for in engagement awards**
In a recent blog post, the Patience Centered Outcomes Research Institute (PCORI) answered frequent questions about what its Eugene Washington PCORI Engagement Awards program does – and doesn’t – fund, and what reviewers are looking for in applications. The post also addresses recent changes in PCORI’s application materials and review schedule. Read more...

**Reminder:** Proposed Emory P30 Center on Diabetes Translational Research Seeks Pilot & Feasibility Proposals
**Deadline: September 15 (for LOI)**
Emory and its partners are applying to the National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK) to receive support for a Center for Diabetes Translation Research. The mission of the center is to facilitate and grow diabetes translation research at Emory, its partner institutions, regionally, and nationally. Investigators are encouraged to propose pilot projects for inclusion in the P30 application that address aspects within specific cores or areas of overlap and interrelationships across cores. Read more...

**NIH: Pioneer Award Program (DP1)**
**Deadline: October 16 (for concept proposal)**
The NIH Pioneer Award initiative complements NIH's traditional, investigator-initiated grant programs by supporting individual scientists of exceptional creativity who propose pioneering and possibly transforming approaches to addressing major biomedical or behavioral challenges that have the potential to produce an unusually high impact on a broad area of biomedical or behavioral research. Read more...

**Deadline: October 16 (for concept proposal)**
The intent of this program is to attract both international and U.S.-based early-stage investigators from outside the field of HIV research to help address key scientific questions in HIV research, including emerging issues of long-term survival with HIV infection, prevention of HIV transmission, and research toward a cure. Application is a two stage process—concept proposals are due 10/16/15. Please contact Dr. Kimbi Hagen at the Center for AIDS Research at Emory (cfar@emory.edu) if you are interested in applying. ### Upcoming Dept. of Med. Divisional Research Seminars

<table>
<thead>
<tr>
<th>Date</th>
<th>Time</th>
<th>Seminar</th>
<th>Location</th>
</tr>
</thead>
</table>
| Thu Sep 10 | 8:00 am| **Infectious Disease Seminar:** “Mycobacterium tuberculosis immune evasion and evolution: Why is it hard to make a TB vaccine?” (Joel Ernst—NYU School of Medicine)  
Rita Anne Rollins Room, 8th floor, Grace Crum Rollins Building, SPH |                                                                          |
|            |        | **Pulmonary Division Research Seminar:** “Nrf2, PU.1 and the Alveolar Macrophage” (Bashar Staitieh)  
Whitehead Biomedical Research Building, Conference Room 200 |                                                                          |
| Fri Sep 11 | 12:00 pm| **Digestive Diseases Basic Research Seminar:** "Lysophosphatidic acid receptor 5 is essential for intestinal stem cell renewal" (Peijian He)  
Whitehead Biomedical Research Building, room 200 |                                                                          |
| Mon Sep 14 | 9:00 am| **Cardiovascular Biology Seminar:** “Biomechanical properties of cells and approaches to rapidly identify and sort cells by biomechanics” (Todd Sulchek—Georgia Tech)  
Emory University Hospital, Hurst Conference Room E450 |                                                                          |
|            | 4:30 pm| **Geriatrics & Gerontology Research Seminar:** "Technology as a tool for behavioral and psycho-educational interventions for caregiving dyads" (Patricia Griffiths)  
Wesley Woods Health Center 5th floor conference room |                                                                          |

### Events & Educational Opportunities

#### Upcoming workshops from Woodruff Health Sciences Center Library
- September 14 at noon: Create Bibliographies with EndNote
- September 16 at 11:30 a.m.: SPSS Basics (via Lynda.com)
- September 16 at noon: Planning for a systematic review

[Read more...](#)

#### September 11: Enhance your research with HSR methods, tools & resources from the National Library of Medicine
Faculty: Patricia Gallagher and Lisa Lang, NLM’s National Information Center on Health Services Research and Health Care Technology; Erin Holve and Liz Koechlein, AcademyHealth; Christiane Voisin, Cecil G Sheps Center for Health Services Research; Lynn Whitener, Senior Content Specialist, HSRR, National Library of Medicine
1:30 – 3 p.m.  
[Read more...](#)

#### September 14: “Customizing Your ‘Candidate Information’ Section for Successful Career Development Award Grant Funding”
Grantsmanship tips and strategies to create a winning career development plan. Grants covered will include the NIH K Series and similar CDAs. Please RSVP by tomorrow, 9/10.
Noon – 1:00pm. Egleston Children’s Hospital, classrooms 5-7.

Highlighted Researcher

Lauren Huff, PhD (Cardiology)
Dr. Huff is a postdoctoral fellow in the Division of Cardiology studying under Dr. Kathy Griendling. Her research focuses on the molecular mechanisms by which vascular smooth muscle cells contribute to the progression of atherosclerotic plaques. She is especially interested in the interplay between Rho GTPases and NADPH oxidases in these processes. In her free time, she enjoys swimming, exploring the outdoors, and spending time with family and friends. Read more (you may need to refresh the page)...
