August 21: Preparing for your 15 minutes of fame: How Emory Media Relations can help your research program
This event sponsored by the Research Community will feature a discussion on being prepared for a call from the media and how it can help your research program. Speakers include Nancy Seideman, Vince Dollard, and Department of Medicine (DOM) faculty members David Weiss, PhD and Jay Varkey, MD. 1 – 3 p.m. School of Medicine room 170A. \textcolor{blue}{RSVP} by August 19 | \textcolor{blue}{Questions?}
October 1: Clinical Skills Workshop
Save the date for this half day workshop aimed at improving clinical examination skills of faculty and the teaching of those clinical skills to trainees. Workshops will include EKG, eye exam, joint exam, an ultrasound course plus more! Registration and additional details coming soon.

Highlighted Educator

Karen Law (Rheumatology)

Karen Law was born and raised in Atlanta, GA. She graduated from Brown University, and received her MD from Brown University as well. She returned to Atlanta and Emory for her residency and chief residency in Internal Medicine, followed by a fellowship in rheumatology. She joined the faculty in 2011, establishing a busy rheumatology practice at EUHM, while also serving as Associate Clerkship Director for the third year internal medicine clerkship. She was awarded the Clinician Scholar Educator Award by the American College of Rheumatology in 2012 and was selected as a School of Medicine Small Group Advisor in 2013. Her academic focus has been on advancing and redefining what it means to be a clinician educator in this new era of medical education. Ongoing projects include interactive online case studies and innovative classroom techniques to teach critical thinking and diagnostic reasoning. On the clerkship she emphasizes the foundational skills of history taking and physical examination central to the thoughtful practice of medicine.

Her interests outside of work include good food, travel, and listening to This American Life, though recently the majority of her time has been spent chasing after her two kids under the age of two.

This newsletter is brought to you by the Department of Medicine’s Education Community.
