**Faculty member’s professional interests and goals:**

1. **Teaching:**
   - What will your primary teaching venues (i.e., bedside, classroom, small group discussions) and who will you be teaching (i.e., medical students, post graduate trainees, fellows, peers)?
   - How will teaching be evaluated in these venues?
   - Has a teaching portfolio been started?

2. **Scholarship:**
   - What is the primary research area of interest?
   - Is there a mentor with whom the faculty member can work on a project in this area of interest? What skills development would facilitate growth in scholarship?
   - What are potential short-term and long-term funding sources to support the research program? Give anticipated dates of submission for both short term and long term objectives. Consider institutional, regional and national sources.
   - What academic societies are likely to be interested in your work and what are the abstract/workshop submission deadlines for these?
   - Can you apply for membership or Fellowship in a national society?
   - Define goals for above:
3. **Service:**
   - University and School of Medicine: What committees are of interest? Consider research, teaching and clinical committees.
   - Hospital Committees: Consider research, teaching and clinical committees
   - Regional or National: What academic societies are most appropriate to join? Are there committees within these societies that are of interest?
   - Editorial Boards/Manuscript Review: Are there journals within your area of expertise for which you would be interested serving as a reviewer?
   - Community: Are there leadership opportunities within the community that are of interest?
   - Define goals for above.

**OVERALL/Summary:**
Mentor will provide information to the faculty member on available resources for development within Emory and other venues.
